LEARN TOGETHER

More than ever, the world needs people who can work together. At EMU, you can become a unifying leader equipped with skills that will set you apart where you go and whatever you do. Grow through rigorous academic programs and excel in challenging internships. Find your place and your career at EMU.

At EMU, your experiences and skills are valued contributions. Together, we can accomplish great things.

OUTCOMES

97%
of 2022 job-seeking grads
were employed within
one year

100%
of job-seeking nursing
graduates are offered
jobs within three month
of graduation

OVER THE PAST 15
YEARS, OF STUDENTS
WHO COMPLETED EMU'S
PRE-PROFESSIONAL
HEALTH PROGRAM:

82%
were accepted into
physical therapy school

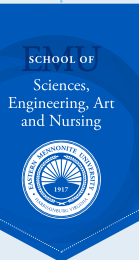

81%
were accepted into
medical school

79%
were accepted into
physician assistant
programs

INNOVATION
ENGINEERING
A team of STEM
students built a

compete in the Shell
Eco-marathon that
reached a fuel efficiency
of 453 miles per gallon.

**At EMU,
your major is
about experience.**

Work with cutting-edge technology in our engineering labs. Explore the human body in our cadaver lab. Create innovative stories using digital and studio art practices. Practice the science of nursing as a part of your clinical practicum in a hospital. No matter what you choose, you will be challenged in the classroom and prepared for your chosen career. Find more than your major: Become an expert in your field and a leader in your career.

OUTCOMES

100%

of teacher education program grads are employed within six months of graduation

100%

of accounting students who sit for the CPA exam pass, 20% above the national average

100%

of job-seeking business and leadership majors were offered jobs upon graduation

90%

of business and leadership internships in 2018-19 turned into permanent full-time job offers upon graduation

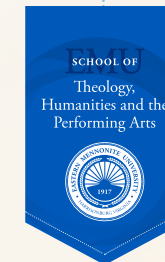

Teach, perform, study, and excel

Learn from experienced educators, talented musicians, innovative social scientists, and business experts who make a difference. Apply your studies beyond the classroom with education practicums, theater productions, and meaningful internships. Academic challenge, creative freedom, and innovative approaches will prepare you to be the unifying leader the world needs.

We ask the big questions

What does it mean to live a good life? Together we find the answer through innovation, creativity, ideas and leadership. You will enhance your ability to recognize, respect, and understand diverse viewpoints about what makes for a good life. When you do that, you will gain skills that set you apart and never expire. You will become a unifying leader, wherever you go, whatever you do.

INTERNSHIPS

89%

of Washington Community Scholars' Center (WCSC) students said their internship provided them with skills for their future jobs

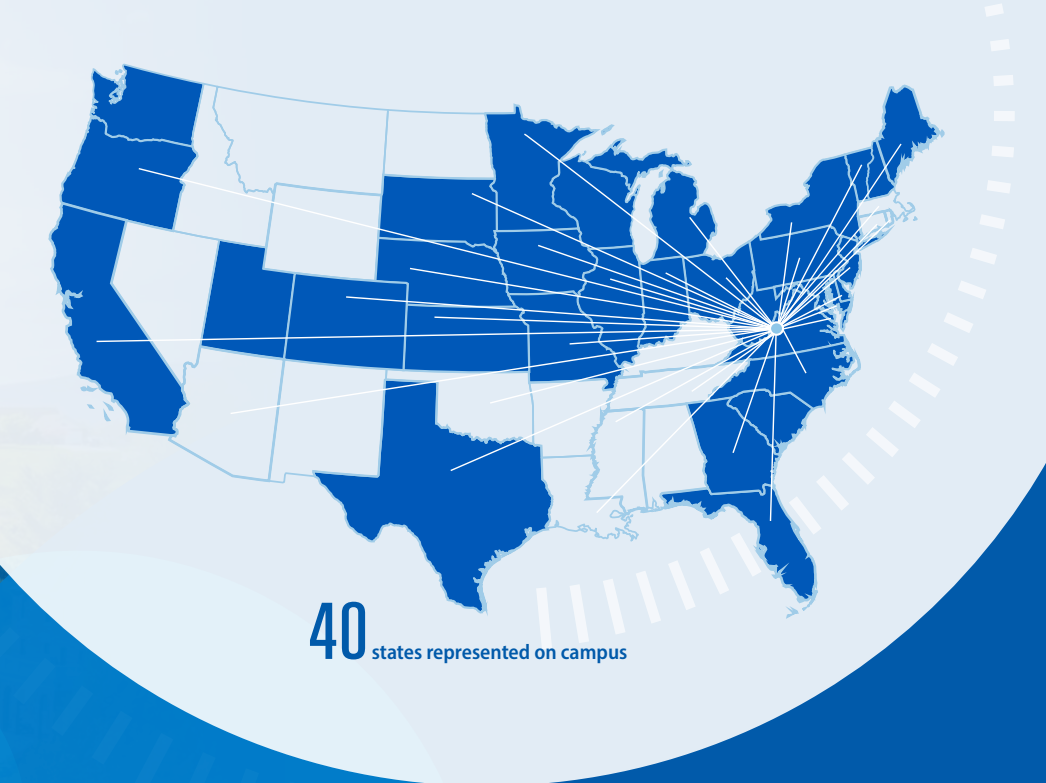

INTERNSHIP POSSIBILITIES

Our options are not limited to these examples

- Organizing and social justice
- Research, advocacy, and policy
- Healthcare and social services
- Theater and the arts
- Education and Spanish
- Digital media and communications

(Our options are not limited to these examples.)

"WCSC opens doors for students entering competitive careers, empowering personal and professional growth through internships, academic coursework, and community living."
RYAN GOOD, DIRECTOR OF WCSC

BELONG TOGETHER

Here at EMU, you matter. When you choose to join the EMU story, you become a part of a community of learners who are connected, accepted, valued and respected. At EMU, you will learn to build intentional relationships, be rooted in who you are, articulate your values and beliefs, and put your passion into action. EMU is an academic institution rooted in the values of an Anabaptist-Mennonite faith tradition, and at the heart of its mission is a commitment to an inclusive and equitable campus community – a place where all are treated with dignity and respect and where all can fully be their authentic selves. EMU will prepare you for a career and develop, mentor, support and challenge you to make the world a better place.

EXPERIENCE TOGETHER

EMU is designed with connection and community in mind. It is not a one-size-fits-all university that takes thousands of students through the same process year after year. Instead, we will work together to provide a tailored experience that puts you in charge. We will take the time to get to know you and provide specific opportunities that will help you tap into your full potential.

Many of these experiences will take place outside the classroom at internships, campus events, club gatherings, athletic events, residence life dorms, and in the incredible spontaneous moments that take place every day on campus.

During your time at EMU, you will begin to see new possibilities as you grow, take risks and master skills, all within an environment that supports and challenges you to become the best possible version of yourself. Together, we will accomplish great things.

IN OUR CURRENT TIMES.

Knowledge is readily available and any fact can be easily checked or learned online. However, the soft skills—the ones distinctly human—are difficult to replace. EMU grads are sought-after by employers because of these qualities, in fields such as nursing, education, and beyond.

DISCOVER TOGETHER

Regardless of your major, you will graduate with hands-on experiences related to your field. You will also graduate with incredible life experiences through the intercultural component of the core curriculum, which has been required since 1982. Every semester, groups of EMU students travel near and far with a professor who has lived or worked extensively in the region. Learn history where it happened and speak a new language with those who use it every day. The world will become your classroom, and you will more deeply understand your place in it. After all, the more you see, the more you are capable of seeing.

You may also choose to travel and stay closer to campus at the Washington Community Scholars' Center in D.C., which provides both housing and classrooms. Gain life and career experiences in the heart of our nation's capital. EMU is one of the only small liberal arts schools with an internship program in Washington D.C. that is supported by D.C.-based faculty and a brick-and-mortar facility.

FACT: EMU's first off-campus trips were offered in 1972.
