LEARN TOGETHER

More than ever, the world needs people who can work together. At EMU, you can become a unifying leader. Gain skills that will set you apart wherever you go and whatever you do. Grow through rigorous academic programs and excel in challenging internships. Find your place and your career at EMU.

At EMU, your experiences and skills are valued contributions. Together, we can accomplish great things.

OUTCOMES

98%

of 2021 job-seeking grads
were employed within
one year.

INNOVATION

ENGINEERING

A team of STEM
students built a
supermileage car
to enter into the
Shell Eco-Marathon
Challenge that got 135
miles to the gallon.

AT EMU, YOUR MAJOR IS ABOUT EXPERIENCE.

Work with cutting-edge technology in our engineering labs. Explore the human body in our cadaver lab. Create innovative stories with digital media, photography, video, and studio arts. Practice the science of nursing as a part of your clinical practicum in a hospital. No matter what you choose, you will be challenged in the classroom and prepared for your chosen career. Find more than your major: Become an expert in your field and a leader in your career.

OUTCOMES

100%

of teacher education program grads are employed within six months of graduation

100%

of accounting students who sit for the CPA exam pass, the majority on the first try

100%

of job-seeking business and leadership majors were offered jobs upon graduation

83%

of internships in 2018-19 turned into a permanent full-time job offer upon graduation

TEACH, PERFORM, STUDY, AND EXCEL

Learn from experienced educators, talented musicians, innovative social scientists, and business experts who make a difference. Apply your studies beyond the classroom with education practicums, theater productions, and meaningful internships. Academic challenge, creative freedom, and innovative approaches will prepare you to be the unifying leader the world needs.

WE ASK THE BIG QUESTIONS

What does it mean to live a good life? Together we find the answer through innovation, creativity, ideas and leadership. You will enhance your ability to recognize, respect, and understand diverse viewpoints about what makes for a good life. When you do that, you will gain skills that set you apart, and never expire. You will become a unifying leader, wherever you go, whatever you do.

INTERNSHIPS

89%

of Washington Community Scholars' Center (WCSC) students said their internship provided them with skills for their future jobs.

INTERNSHIP POSSIBILITIES

Our options are not limited to these examples

- Organizing and social justice
- Research, advocacy, and policy
- Healthcare and social services
- Theater and the arts
- Education and spanish
- Digital media and communications

"WCSC opens doors for students entering competitive careers, empowering personal and professional growth through internships, academic coursework, and community living."

RYAN GOOD, DIRECTOR OF WCSC

LIVE TOGETHER

Join a broad faith community with a global impact. Here, you will learn to be rooted in who you are, to articulate your faith, and to put it into action. The EMU core values of community, service to others, sustainability, peacemaking and discipleship come from a rich Christian tradition that strengthens the EMU experience. Join students from a variety of backgrounds and places. Arrive with a common goal: To make a difference in the world by pursuing meaningful careers and living with intent. EMU graduates become unifying leaders who can clearly articulate what they believe. They are able to engage in thoughtful dialogue in an increasingly polarized society.

You are stepping into a world where the stats are discouraging, people's actions are unpredictable, and leaders' decisions are nerve-wracking. Step out. Whatever your calling may be, defend peace and justice with your actions, your interactions, and your attitude. Most especially, when issues are no longer trending and the hashtags are no longer hashing and the lights and cameras are off... defend peace, defend justice – you can never go wrong.

LEYMAH GBOWEE

a Nobel Laureate and EMU graduate delivered these words
at EMU's commencement ceremony in 2018

WIN TOGETHER

EMU athletes win on and off the court. From conference championships to all-conference academic honors, wearing a Royals uniform will make you part of a storied tradition. Build relationships with our experienced coaches and a network of alumni. Find out what it means to compete and learn at the highest level.

EXPERIENCE TOGETHER

EMU is designed with connection and community in mind. It is not a one-size-fits-all university that takes thousands of students through the same process year after year. Instead, we will work together to provide a tailored experience that puts you in charge. We take the time to get to know you and provide specific opportunities that will help you tap into your full potential.

Many of these experiences will take place outside of the classroom at internships, campus events, club gatherings, athletic events, residence life dorms, and in the incredible spontaneous moments that take place every day on campus.

During your time at EMU, you will begin to see new possibilities as you grow, take risks and master skills, all within an environment that supports and challenges you to become the best possible version of yourself. Together, we will accomplish great things.

.....

IN OUR CURRENT TIMES, knowledge is readily available and any fact can be easily checked or learned online. However, the soft skills, the ones distinctly human, are very difficult to replace. EMU grads are sought-after by employers because of these qualities, in fields such as nursing, education, and beyond.

DISCOVER TOGETHER

Regardless of your major, you will graduate with hands-on experiences related to your field. You will also graduate with incredible life experiences through the intercultural component of the core curriculum, which has been required since 1982. Every semester, groups of EMU students travel near and far with a professor who has lived or worked extensively in the region. Learn history where it happened and speak a new language with those who use it every day. The world will become your classroom and you will more deeply understand your place in it. After all, the more you see, the more you are capable of seeing.

You may also choose to travel while staying closer to campus at the Washington Community Scholars' Center that provides both housing and classrooms. Gain life and career experiences in the heart of our nation's capital. EMU is one of the only small liberal arts schools with an internship program in Washington, D.C. that is supported by D.C.-based faculty and a brick-and-mortar facility.

.....

FACT: EMU's first off-campus trips were offered in 1972.
