

2023 EMU Painting Policy

2023

Facilities Management Painting Policy

EMU Facilities Management has changed the way that requests for painting are managed since the departure of our last full-time painter in December of 2017. We find that it is necessary to find a more sustainable way to manage painting requests as we now rely on local painting contractors for most of our painting work. Our goal is to be responsive to requests for painting/repainting while working with a painting contractor to provide this service for us.

Offices/Suites that need to be repainted due to normal wear and tear will be done at no charge to the department.

Departments requesting offices/suites repainting not covered by Facilities Management will need to provide a G/L account number and incur the following estimated charges:

- A. Office Repainting - \$450-700
- B. Creating or repainting an accent wall - \$300-350
- C. Suite/Department repainting costs not covered by Facilities Management will be quoted by our painting contractor at the time of the request.

Facilities Management will provide a palette of colors available for accent walls.

Facilities Management reserves the right to make exceptions to these policies based on departmental or program-specific needs.

Facilities Management will not entertain requests by departments or individuals to do their own painting in any university space.
