

FC 2.19.18

Attending: Ella Spitler, Mario Hernández, Erik Peachey (Treasurer), Jeremy Brenneman (Secretary)

Absent: Emmanuel Kampanga (VP)

1. Call to order- 7:04
2. Psych Club: Lara is asking for \$70 to buy snacks for a psychology internship fair and pet therapy. The fair is mostly for psychology majors and social work majors, but the event is open for anyone. The money will also be used for buying snacks for dogs during the pet therapy event next week as well as giving money to the volunteers. The pet therapy event will be open to all students. Lara said they would return the money they did not use.
 - a. We recommend giving psych club \$70 for their events, with the stipulation that they return any extra money.
3. Grayson came to represent celebration, the student led praise and worship. They are requesting \$750 to buy a keyboard. The piano is not ideal for contemporary worship music. There are currently about 25 people who consistently come to worship. More first years are showing up this year. Last year they received funds for a drum kit. They currently have a yearly budget of \$200. There are about 10 musicians who cycle through every service. Price came from hometown music. This keyboard would be the last large purchase Celebration would make for at least ten years.
 - a. Option 1- not to fund Celebration \$750 dollars but they are free to come back later. We have little money. They have access to a keyboard.
 - b. Option 2- we ask them to collaborate with another group or groups to raid funds and SGA will consider funding a portion of the request.
